She was a smart girl
But she didn't think
The well was full
Still there's nothing to drink
Got some money
Still it don't add up
How a girl like this can spend her life
Drinking from an empty cup
She's lost, la, la, la, lost

Got a friend
who works too much
Trying hard to find the end to the means
Came from nothing
Has got nothing to lose
Except he?s losing sight of what is true in all his busy
life
that boy?s Lost, la, la, la, lost
that boy?s Lost, la, la, la, lost
Maybe it's me but I can't see
Why sometimes we choose to be blind
Looking away going day by day
And stumbling' around in the dark

Spend our lives
Wasting time
running hard

Still behind
So afraid
Of slowing down
Got to Stop and take a look around and see what can
be found
Lost, la, la, la, lost
Lost, la, la, la, la, lost
