Looks like you're down again  
Feel pushed around again  
Now if you need a friend  
I will listen to what you send  
Somebody done you wrong  
Saw it coming all along  
Now peace of mind is gone  
You can change that if you're strong

Chorus:  
Sing a new song  
Leave the past behind  
Take a closer look at now  
And see what we can find  
Sing a new song

I see a shining light  
Cut through the dark of night  
You don't have the right  
To keep that I tuck inside  
In your mind try to see  
Just who you want to be  
Now you've got the key  
You've got to turn it and set yourself free  
Chorus x2

Come and see what we can find  
Sing a new song  
Yeah  
Sing a new song

We're going to see what we can find  
Sing a new song  
You can leave it all behind  
Sing a new song x4
