"Black Clouds"

Black clouds rollin' up the valley.
Black clouds cover up the sun,
Black clouds rollin' up the valley,
How can I be sure that you're the one?
Rivers rushin' through the canyons,
Rivers rollin' through the hills,
Rivers rushin' through the canyons,
I've got a restless heart I can't keep still.
See this path we're on coming to a fork now,
The forest blocks the light of day
On this pathway we must make a choice now,
Stay together or go our separate ways.
Thunder clappin' in the treetops
Sparks shoot out in the night,
Thunder clappin' in the treetops
It's hard to say who's wrong and who is right.
Fire ragin' in the woodlands,
Smoke blows across the fields
Fire ragin' in the woodlands,
You don't really know the way I feel.
