Artist: Strings of Atlas

Writer/composer: Atlas Cage

Song: Indigo-go Girl

She's my oh so indigo, go-go girl

It's a quarter past that sunset and I can't slow
down

A hundred miles of dirt before another town
I'm freezing as the deserts losing all its light
I just got to make sure that I'm there tonight

A billions seconds pass before I hit the ground
Gravity keeps trying but I won't stay down
I can hear her voice and man I love that sound
It gets into my soul and then it crawls around

She's my oh so indigo, go-go girl

Here we go, here we go indigo go girl

She's pulling me in
