So what now baby, where do we go

Somebody tell me when the water's dry
How we're gonna make it rain
Somebody tell me when the last leaf falls
What we're gonna do that day

Is time runnin out
or just givin up, maybe we gotta change

Who's gonna be the one to sow the seeds
Who's gonna take the hit for all the deeds
Who's gonna grab the check when it's time to pay
What's going down that day

So what now baby, where do we go

I don't waste my time on luck I
Waste it on everything else
Don't read a lot, don't watch the news
It ain't nothing but the blues anyway
Wake up tired, sleep all day
All that working and no damn play
Grab a cup to wake up but I ain't got a spoon
So I stir my coffee with a nail
So I stir my coffee with a nail
So I stir my coffee with a nail
So I stir my coffee with a coffin nail

A pale horse ride, is callin your name

So what's it comin to
what's it comin to
