

Strings of Atlas "Play"

Visit "[Play](#)" on MotoLyrics.com

Wasn't I good to you baby
Didn't I do it well
You know that I adore you baby
For you I'd walk through hell
On the border line, unconsciously
Who's always bringing you back
And it's you with your fucked up ways
That's got a hold of me

How come you don't wanna play with me no more
How come you don't wanna play with me no more
How come you don't wanna play with me no more
How come you don't wanna play with me no more

Must have found yourself a new toy
Cuz you don't ever answer your phone
And you swear that you can't remember, baby
What you did the night before
I'm like a dog, unconditionally
I'm always gonna be there
For you even if you go and
Blow me off like you don't care

How come you don't wanna play with me no more
How come you don't wanna play with me no more
How come you don't wanna play with me no more
How come you don't wanna play with me no more

Play play play
With meeeeeeeeeeeeeeeeeeeeeeeee
