The One and Only

I'm not the one and only that I wanna be  
I'm just the cold and lonely the world needs me to be  
I never wanna feel anything like this  
I hope you never feel anything like this

I'm not the one and only that I wanna be  
I'm just the cold and lonely the world needs me to be  
I guess nobody wants me, and I know that I'm to blame  
Every single story, they're all exactly the same (yeah)  
It's the way that she moves, and the look in her eyes  
It's the way that she laughs, and the way that she cries  
It's when she takes my hand, it's how she says alright  
It's how she's so cool every goddamn night

It's the way that she moves, and the look in her eyes  
It's the way that she laughs, and the way that she cries  
It's when she takes my hand, it's how she says alright  
It's how she's so damn cool every goddamn night
