Wether your in LA  
So yeh we're back in LA  
Wether your in New York  
Where were on your block  
Wether your in the Uk  
Where the sky is dark  
And the grass is kinda green  
You know like central park

Still my favourite place in the whole wide world  
It's got to be in the middle of the ocean floor  
I see you walking on the ocean paradise on earth

The fiftieth state, why?  
Hawaii-EH! -OOohhoohhohh

OoOoooO Oh oh oh!  
I wanna live in somewhere different.  
Oh oh oh  
A nuclear disaster might be on our way  
But I don't care I'm in the USA

Whether we're drunk or stoned  
Or we're sober and old  
If I'm with you I'm a happy man.  
If you could sit there cold  
While you count your gold  
And your problem is you can't  
Find your remote control.

Say, my favourite person in this whole wide world  
Is a woman who could understand every word  
And when she speaks to me she makes me see the  
world  
As my favorite place...

Hawaii-EH! -OOohhoohhohh  
We got it made  
Ohhhh  
Yes I know  
Can we go

By plane or boat  
Ohhhhhh

Whether you take it slow or you let me go  
Whether you tell me somethin that I did not know  
Whether your neat and polite or you scream and fight  
Whether you keep something from me that I would not like.

Still my favourite attitude in this world so far  
Is the friendly spirit of an Islander  
I like the way folks are in this most special place  
I don't care what happens I'm taking a plane

Hawaii Ha Aw Wa I E!  
Hawaii Ha Aw Wa I E!  
I said  
Hawaii Ha Aw Wa I E!  
I said  
Hawaii Ha Oh Aw I E!  
I said  
Hawaii Ha Ow Wa I E!

Kauai, oh why, I'm gonna die in Lanai,  
Maui or The Big Island, cause they know why.

Hawaii Ha Aw Wa I E!  
Ooo wa Ah Ie  
Ah we Ei Wo Ah E

OooooOHhhhhhhhhh ooo wowww  
I wanna be with something different.
