[Intro: Dr. Dre Talking]

yeah, I'm just sittin' in the lab, I'm...  
my name is Dr. Dre, and  
I want all you mothafuckers out there to know  
that I have a split personality (\*Mr. Ski chuckles\*)  
and sometimes I just, exit through these things, you  
know  
ha ha, you know, hell yeah..

[Break: E-A-Ski]

Mr. Ski nigga  
I'm takin' over shit Dre  
(\*E-A-Ski chuckles and laughs\*)

[Verse 1: Dr. Dre]

diagnosis, roaming with more personality to slaughter  
with modern tech, jugglin' hard in a Leg' versus  
manslaughter  
I took a swig of the potion and it sent me coastin'  
with visions of my ulti-Eagle hittin' three wheel motion  
"Is it Dre, is it Dre"  
No that Ski in a purple 6-tray G.T.A.  
killin' any mothafucker walkin'  
and all these niggaz in these magazines that keep on  
talkin'  
don't get twisted, I been there, I done that  
but Ski's out control and maniac  
he just show me that he got my back "I just show him I  
got your back"  
see, in a lot of there, I'm straight  
I'm Dr. Dre, but after stroke of mid night  
and Mr. Ski A.K.A. Dooms Day  
concocted the shit up in my lab  
with Mr. Ski up in my head, bringin' on the Aftermath  
you can see the stars runnin' from the sky  
tryin' to get away from Dr. Dre and Mr. S-K-I

[Chorus: 2X]

[Mr. Ski ] the Doctor should've told you, Mr. Ski is fatal

to your health

[Dr.Dre] I'm livin' on another level that y'all ain't been yet

[Mr. Ski ] the Doctor should've told you, Mr. Ski is fatal to your health

[Dr.Dre] yo, the life style that I'm livin' is just too complex

[Verse 2: Mr. Ski]

it's Mr. Ski and Dr. Dre, can't stop this maniacal individual

to start showin' level, with 7.0 on your digital

I'm tryin' to take over shit like Buddy-love

but this professor ain't nutty and he can't do it, any herpe dove

I was the madness that brought on Dre Day

such this time Dr. Dre, he's the one is gonna pay

I dropped this bud, strain in his brain and shed it off

and have them slangin' guns to them females wouldn't set it off

I do dirt, and tied up his body and break free

witnesses saw Dr. Dre but it was really Mr. Ski

you might think it's insane, but it's a clever scheme

Dre don't know shit, he wake up in the morning thinkin' it was a dream

put his ass to sleep and soak his game up

steady mobbin', hopin' to get this mothafucker brained up

I can't stop till I succeed, then I can break free

no longer Dr. Dre, nigga it's Mr. Ski

[Chorus: 2X]

[Mr. Ski ] the Doctor should've told you, Mr. Ski is fatal to your health

[Dr.Dre] I'm livin' on another level that y'all ain't been yet

[Mr. Ski ] the Doctor should've told you, Mr. Ski is fatal to your health

[Dr.Dre] yo, the life style that I'm livin' is just too complex

[Verse 3: Dr. Dre]

I start shakin'

test tools and bottles start breakin' (\*glass crush\*)

my Ulti-Eagle starts overtakin'

instantly spinnin' around like the mass

tossin' that shit up off like a twister

no longer, the docter or Mister "Ski"

I can't hold it back

I'm trapped behind the walls of my brains, tryin' to count a rack

"even though tryin' to fight"  
my vocal tone ignited into a loud scream "how high"  
it's time to get the fuck up off, yeah

[Verse 4: Mr. Ski]

I'm on the loose like 2Pac I'm juiced  
God bless the dead  
but I'm already dead from trauma to the head  
I'ma verbal Manslaughter on the Mic  
bumpin' in your trunk, shatterin' your glass from the  
street life  
nobody wants to play with me so I'm drillin' them  
I'll be back like Swords nigga, so I can finish killin' them  
if you want music to drive-By  
torment minds like yours and Dr. Dre  
but all I think about is S-K-I

[Chorus: 2X]

[Mr. Ski ] the Doctor should've told you, Mr. Ski is fatal  
to your health

[Dr. Dre] I'm livin' on another level that y'all ain't been  
yet

[Mr. Ski ] the Doctor should've told you, Mr. Ski is fatal  
to your health

[Dr. Dre] yo, the life style that I'm livin' is just too  
complex

[Outro: Mr. Ski]

(\*exaggerate chuckles\*)
