Your midnight blues over the ocean  
above the sky of memories  
the love for devotion, a ticket to the moon.  
Your midnight blues the magical mystery tour  
on a magic carpet to eternity,  
to our promise land you know.

Your midnight blues are fighting back  
the memories of right or wrong.  
Your midnight blues will bring me home  
to the place I miss, where I belong.

Your midnight blues over the ocean  
above the sky of memories  
the love for devotion, a ticket to the moon.  
Your midnight blues the magical mystery tour  
on a magic carpet to eternity,  
to our promise land you know.

Your midnight blues are fighting back  
the memories of right or wrong.  
Your midnight blues will bring me home  
to the place I miss, where I belong.

Your midnight blues over the rainbow  
your knight in shining armors  
we're lonely in these hights  
and your battles will be here  
I'll change the world!

Your midnight blues are fighting back  
the memories of right or wrong.  
Your midnight blues will bring me home  
to the place I miss, where I belong.
