You sang to me tonight  
My lovers voice turned rivers wide

Flow me to her heart  
I want to listen from where it starts  
If I dive too deep  
I pray to God my soul to keep  
She can sing a symphony  
Like a three note melody

So hush, be still, crowd  
And watch me fall to heaven  
And she will sing so loud  
And take us all to heaven

If you say you heard it all  
I would burn the music halls  
I can say I'll wait for years  
To hear her son with deafening ears

She can sing a symphony  
Like a three note melody

So hush, be still, crowd  
And watch me fall to heaven  
And she will sing so loud  
And take us all to heaven

Hush, be still, crowd  
And watch me fall to heaven  
And she will sing so loud  
And take us all to heaven
