Visit "[80's Comedown Machine](#)" on MotoLyrics.com

It's not the first time that I'm watching you  
Passing by

I've tried too hard to get back then  
But you're not on time anymore

And you know try to believe in you  
For a second time

You said the world's closed in but you crawled in  
Back inside

So please run away  
So please run away

#### VERSE

I've tried to believe in fate  
For a second try  
It's there in the safe why don't you  
Close the blinds  
For the night

So please run away  
So please run away

So please run away  
So please run away  
So please run away  
Run away
