"Circles"

Circles
She's spinning me around in circles
Again
Oh, that skinny blonde girl
Something about the ages
(Stop it, stop it!)
I failed college algebra again
Oh, that skinny blonde girl

(Cut it out, I'm soloing!)

Shee took me to different places
Like the university bookstore
And the financial aid office
I had to borrow her parking pass
Working on the night staff
At the computer lab
I totally found out her screen name
Oh, that skinny blonde girl
And the circles, and the ages, and the ages

(Man, I told you not to bring that thing here...)

(uhh...where am I...Is that song really in G?)
