im very sensitive to birds
im very sensitive to trees
im very sensitive to all these things
but im especially sensitive to bees
yea i really really really like bees
have you ever walked outside
and notice that they're really pritty kute
they like to fly around and eat your fruit
but its ok cuz they're cute
yea its ok cuz they're cute
BZzz ouch
Bzz ouch
Bzz Bzz Bzz ouch
i heard some people say
you cant count on a bee to behave
and they wont look you in the eye
and all they wanna do is fly real high
but u gotta love them anyways
i dont care wut they say anymore
cuz i really really really do like bees
yea i really really really like bees.
