"Would everyone please rise for the presentation of our national colors"

Oh!

Oh I like that!

Oh yeah!

Come to the place where the tropical breezes blow

Come to the coolest place I know

The people are so great

But really there's only me

And that means I'm so great

And also there's The Cheat

Oh there's The Cheat!

The place where the tropical breezes blow

The Cheat!

In the coolest place I know

The one's are always cold

And parties last all night

And probably lots of chocolate

And population tire

POPULATION TIREEEE!!!
