Strung Out - Katatonia

Impoverished and bleedin' hope here somethin' fast
receding dead light holocaust
I check this body in tonight
cross my heart and hope to die
to never leave this place alive
im burning right in front of you
break myself against you I lay still

your penetrating glances dead stop all my
vain advances to another place where I can truly be
myself
respirators kicked on high
life support keeps me alive
to forgive I will never do
one last kiss is all I need from you
ride salvation goin' under
they say they say I wont survive you now
I wish I never knew you
your name is Katatonia

Ride salvation goin' under
they say they say I won't survive you now
I wish I never knew you
your name is sanctuary
I call you Katatonia
