A look of discontentment fills your hazel eyes
As I ask for the millionth time what's goin' on?
You seem to be confused about just where you stand
with me tonight
As we tear apart all that wasn't lost to another fight

And so we turn against each other once again
Talkin' to myself again 'bout all the things I should've
said
You run and I go hide
And I wait for you
I wanna know where this is going
I still wait for you
I made a promise to myself no to let this go

And do we still have a chance to save what we haven't
lost again
But now I need to see this trough
To burn these paper walls of doubt
And so we turn against each other once again

You run and I go hide
Talkin' to myself again 'bout all the things I should've
said
And I wait for you
I still wait for you
My fucked up head is spinning round
And all my thoughts just keep me down
Here on your doorstep I'm drunk again
I know youre sick of all my shit
So tell me right now where do you stand?
And I know you wanna end all this
And I know your tired of all ma ways

I know youre tired of this waiting game
I know your tired of it all
Just tell me now

And do we still have a chance to save what we haven't
lost inside
I wanna know where this is going
All these paper walls we build

get in the way x2
And all the ashes that have spilled
And so we turn against each other once again

You run and I go hide
Talkin' to myself again 'bout all the things I should've
said
I still wait for you And I wait for you
