Take me and I lay down my life  
And break me, cut the cancer with a knife  
Teach me, what is wrong from what is right  
And show me, when to walk and when to fight

I am weak, I'm never strong  
I've been upside down for way too long  
I'm sick and tired of no real change  
Can You help me rearrange  
My life 'cause I really want to live again  
I want to live again

So shake me, I'm a man who's settled  
I'm a man who's settled in, settled in  
Can You clean me? I'm so dirty from within

I am weak, I'm never strong  
I've been upside down for way too long  
I'm sick and tired of no real change  
Can You help me rearrange  
My life cause I really want to live again

Ooh yes I am weak, I'm never strong  
I've been upside down for way too long  
I am weak, I'm never strong  
I've been upside down for way too long  
I'm sick and tired of no real change  
I said, can You help me live again?
