Verse 1

Once upon a lonely night
Emptiness filled my heart
And I realized my life wasn't right Then I called upon
your name
And I just want to say

Chorus

I was lonely, lost without your love
Sad and lonely without you
You're the only one that I'll ever love
I need you

Verse 2

All I'll ever need is you
Cause you are everything
I've never seen a love that's so true
The search is over now for me and forever more
And I'll never have to be lonely anymore

Repeat Chorus
