Loving you, loving you, loving you

I was so confused, not knowing what to do with myself
I was being used, blinded I was headed for hell
Then God saved me, pulled me from the heat

Always on my mind
What a blessing that was sent to me
Together we will shine and

I'm loving you
I'm loving you
Oh, I'm loving you
I'm loving you

Anger in my heart, life was such a drag for me
Then I made a start to serve the living God, now I'm
free
You're my whole life, you're my lasting dream

Always on my mind
What a blessing that was sent to me
Together we will shine and

I'm loving you
I'm loving you
Oh, I'm loving you

I'm loving you
I'm loving you
Oh, I'm loving you, hey

Loving you, loving you, loving you
