

Stryper "Rock the People"

Visit "[Rock the People](#)" on MotoLyrics.com

From the time, I was a boy
I knew what I was born to do
Instead of playing with my toys
I'd play my songs, that's all I knew, whoa

With a guitar in my hands everyday
My heart and soul would always say

Rock the people
Rock the people

Now I've been around the world
I can't believe what I have seen, no
I've rocked with every guy and girl
Sometimes I think, it's all a dream, yeah

With a guitar in my hands everyday
My heart and soul would always say

Rock the people
Rock the people

With a guitar in my hands everyday
My heart and soul would always say

Rock the people
Rock the people

Rock the people
Rock the people
