Verse 1

You're out there all alone
Searching endlessly for a home
You're happiness has gone away
Then you hear somebody say

Chorus

We can have what everybody dreams about
We can say hello and never say goodbye
Love can last forever without any doubt
In the world of you and I

Verse 2

You've got to keep your faith
Follow me I'll lead the way
There doesn't have to be any pain
Forever you and I will reign

Repeat Chorus
