[Intro:]

We are outnumbered...

The virus has completely devastated over 150 of  
the world's major regions and is spreading rapidly.  
At this point in time we know of only one method of  
killing the creatures:

destroy the brain.

Beyond the guard of any loved ones who  
may have recently been in any sort of contact could be  
infected.

And if you find yourself out in a threatening position,  
please do not hesitate to act.

Again, this is not a test.

This is not a joke.

We as a species are overwhelmed.

We are outnumbered!

Standing at accuracy's demise we have reached the  
new world wasteland

Population converted: One by one (one by one),  
thousands upon thousands.

Like scavengers on waste, like vultures on the sick,  
zombies outnumber the living.

We are the outnumbered. We are the outnumbered.

Find your post, find your shelter in hopes of outliving  
the undead.

Build your walls, maintain protection with ambitions of  
beating the odds.

Find your post, find your shelter in hopes of outliving  
the undead.

Build your walls, maintain protection with ambitions of  
beating the odds.

In a sea of stinking rot, in a place where living humans  
are no longer the hunters,

all the money in the world won't satisfy the enemy....

Hunted.

Hunted. Hunted. Hunted.

Standing at accuracy's demise we have reached

the new world wasteland. Go...  
Mankind is the losing faction; retreat is eternally  
hopeless.

Find your post, find your shelter in hopes of outliving  
the undead.  
Build your walls, maintain protection with ambitions of  
beating the odds.  
Find your post, find your shelter in hopes of outliving  
the undead.  
Build your walls, maintain protection.... oh ya ...  
with ambitions of beating the odds.

We are the outnumbered.
