Written by Marty Stuart and Paul Kennerley

I'd go lookin' for you, if you wanted me to
If you wanted me around
And I'd go anywhere, as long as you were there
If you wanted me around

If you needed me, well baby there I'd be
You know just where I can be found
I'd be there with you, if you asked me to
If you wanted me around

If you needed me, well baby there I'd be
You know just where I can be found
I'd do all that I could, yeah, you know I would
If you wanted me around
If you wanted me around
If you wanted me around
