I got a rocket ship, baby, hop right in
Well, I'm gonna take you for a little spin
Buckle up honey, and don't look down
We're gonna go faster than the speed of sound
Come on baby, take a trip
Ride around in my rocket ship

I got a rocket ship, baby, climb aboard
It's a hot rod, honey, it ain't no Ford
It's got chromium pipes and fold away wings
Yeah it's a rockin' little rig and it really swings
Well, it's out of this world, honey, it's so hip
Come on baby, in my rocket ship

It's ten, nine, eight ,seven, gonna fly you up to heaven
Six, five, four three, come on baby, take a trip with me
Three, two one, go, this things' gettin' ready to blow
I got a rocket ship, baby, I got a rocket ship, baby
I got a rocket ship, baby, I got a rocket ship, baby

I got a rocket ship, baby, gonna fly you around
Any minute now we'll be leavin' the ground
I'll take you to the moon and the stars above
We'll even touch down on the planet of love
You'll be amazed, you'll really flip
At the things we can do with my rocket ship

It's ten, nine, eight ,seven, gonna fly you up to heaven
Six, five, four three, come on baby take a trip with me
Three, two one, go, this things' gettin' ready to blow
I got a rocket ship baby, I got a rocket ship, baby
I got a rocket ship baby, I got a rocket ship, baby
