Everyday everyday the sun comes out,
I know that we will be okay,
Everyday everyday the moon shines bright,
And on my heart your head will lay,

Because I am with you,
And I love all that you do,
I know we're meant to be,

So stay with me,
and together we we'll sing,
Together we will sing,

Dah dahdah dah dah dah,
dah dahdah dah ooouuhh oohhhh,

Everything you do, everything you day,
What you say?
Everywhere you go, everything you do
What you do?
I know we'll make it through,

Stay with me, 'cause i don't need no
anybody,
Please don't go,
'cause I don't want to be the one left alone,
Lay with me, 'cause I don't need no anybody,
Please hold on,
'cause everything without you seems to go
wrong,

Even if, even if it'd dark outside,
I'll keep you safe from any harm,
Even if, even if it's cold outside,
I'll wrap you gently in my arms,

Because I am with you,
And I love all that you do,
I know we're meant to be,

So stay with me,
and together we we'll sing,

Together we will sing,

Dah dahdah dah dah dah,
dah dahdah dah ooouuhh oohhhh,

Even if it's day or night,
I know its gonna be alright,
I know there's gonna be some fights,
Baby that's our life,
We're gonna be just fine,

Stay with me, 'cause i don't need no
anybody,
Please don't go,
'cause I don't want to be the one left alone,
Lay with me, 'cause I don't need no anybody,
Please hold on,
'cause everything without you seems to go
wrong,

Everyday, everyday the sun comes out,
I know that we'll be okay,
Everyday, everyday the moon shines bright,
and on my heart your head will lay,
Your head will lay!

And together we will sing!

Dah dah dah, dah dah dah, dah dah dah,
dah dah dahh,
Dah dah dah, dah dah dah,dah dah dah,
dah dah dahdah

Dah dah dah, dah dah dah, dah dah dah,
dah dah dahh,
Dah dah dah, dah dah dah,dah dah dah,
dah-do dah-do dahhhhh

(during second 'dah dah's')
Stay with meeeeeee
please don't goooooo
I don't needdddd
