Who's ego trippin' suckers need to start to skippin'
remove

the fork from my anus because I ain't done.

One of a kind never to be figured out, but oh naw,

naw don't let me run my mouth about the wrong thing.

Bonz shut the fuck up but I don't think so
check out my ill flow the shortcomings of my life won't
let me go so I have to maintain or get out of control!
Just a product of my environment experiment still in
development so solution.

Tell me what you doing?
Poison mind control so I have to let it go.
Twisted ~ I am twisted.
Twisted
Twisted ~ I am so twisted!!
Look in the mirror.
What do I see?
An angry motherfucker looking back at me.
The pressure of the world got my mind on rewind.
Man I reminisce when things were divine.
You better hope someone you trust got your back.
But everything is fucked up and ass-backwards plus it's
wack.
You're already hit slobbering red spit in the world
of rock-n-roll shit gets out of control.
Just a product of my environment experiment still in
development so solution.

Tell me what you doing?

Poison mind control so I have to let it go.
Twisted ~ I am twisted.
Twisted
Twisted ~ I am so twisted!!
