### "Big Heat"

Visit "[Big Heat](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We stand here proud and strong  
On our way to the top  
But we don't stand alone  
'cause there's you and your support

It's fire and ice it's your only request  
It's hot and it's burning but you're screaming for more  
We bring it to you - we heat you up  
Our intentions are clear and that's why we rock

In the big heat  
Now everybody will rock in the big heat  
Here we go and there we rock in the big heat  
And all of you will rock in the big heat

We're doin' the best for you  
And I can see we make it right  
We all - can make it - if we want it  
And we all will be stars tonight

It's fire and ice it's your only request  
It's hot and it's burning but you're screaming for more  
We bring it to you - we heat you up  
Our intentions are clear and that's why we rock

In the big heat  
Now everybody will rock in the big heat  
Here we go and there we rock in the big heat  
And all of you will rock in the big heat
