Open your eyes and realise
Life isn't what it seems to be
Open your ears and hear
Promises are just hollow words
Open your mind to understand
Your own advantage is your only friend

Don't close your eyes
Don't shut your ears
Don't close your eyes
Don't ignore your heart or you won't live

Hate, aggression and war
Are waiting behind each door
Terror, torture and hurt
Are all lessons you haven't learnt
Open your heart to feel
Love is not reality

Don't close your eyes
Don't shut your ears
Don't close your eyes
Don't ignore your heart
Or you won't live
Don't close your eyes
Don't shut your ears
Don't oppress your mind
Don't ignore your heart
Or you won't live
Don't close your eyes
Don't shut your ears
Don't oppress your mind
Don't ignore your heart
Or you won't live...
