all this sickness hard to swallow.  
eats my insides until I'm hollow.  
indecision, fornication, condemnation, to damnation.  
this world is a breeding ground.  
take a look at the bleeding ground.  
adoration, temptation, contemplation, to frustration.  
you'll fall apart. don't drag me down.  
you rule this world with a synthetic crown.  
kill each other for no reason to go against it, this is  
treason.  
action, reaction, action, reaction.  
all this sickness forced to swallow.  
fills me inside, I must follow is this what you said for  
now?  
is this what you want to see?  
this is going to piss me off, i will not agree
