"Life's Disease"

Visit "[Life's Disease](#)" on MotoLyrics.com

I feel so numb
All I've become
Has fall apart
Hole in my heart

Severed fragments of my being
Piece together, give life meaning
Fragile quilts of faded memories
Torn apart by life's disease again

I will cry
All is a lie
That we must break
Heal my heartache

Severed Fragments of my being
Piece together, give life meaning
Fragile quilts of faded memories
Torn apart by life's disease again

Life's disease again(x2)

Severed Fragments of my being
Piece together, give life meaning
Fragile quilts of faded memories
Torn apart by life's disease again

Severed Fragments of my being
Piece together, give life meaning
Fragile quilts of faded memories
Torn apart by life's disease again

I will cry
