In the flow of time  
Infinity devine  
A piece of eternity  
Is all I could ever be

I recall all the incidence  
Which had caused me pain  
All the years which passed me by  
That's what I call pain

I sought experience  
I longed for wisdom  
Pride and hope are just like dope  
A lifetime travesty

I recall all the incidence  
Which had caused me pain  
All the years which passed me by  
That's what I call pain

I recall all the incidence  
Which had caused me pain  
All the years which passed me by  
That's what I call pain
