I see the shadows of a bodyline  
You're standing in the middle of the game  
You cannot beat the feeling of pure Rock'n'Roll  
And you're waiting for the spotlight  
You want the flash, the power and the songs  
You want the music  
You want the band, the feeling  
The guitar and the drums  
You want it all and loud

We're all alive  
We're gonna make it hot tonight  
Oh yeah - so come on - let's shake it up

Shake it up  
Shake it up  
Shake it up  
Shake it up

The band begins to play and the kids are getting wild  
They're jumping 'til the house is breaking down  
The passion and the power is getting to it's top  
And we're all rockin' and rollin' and rockin' it down  
You want the flash, the power and the songs  
You want the music  
You want the band, the feeling  
The guitar and the drums  
You want it all and loud

We're all alive  
We're gonna make it hot tonight  
Oh yeah - so come on - let's shake it up

Shake it up  
Shake it up  
Shake it up  
Shake it up
