All through the years We've been walking together  
And all the good times we had  
I thought they'll last forever

Well I don't know  
But I want to know  
I just don't know  
Baby why you're scaring me so

Well it hurts, how it hurts  
I didn't want to make you cry  
Well it hurts, how it hurts  
I didn't want to say goodbye  
It's hurtin', some hearts are bleedin'  
I miss you so - and that's no lie  
Well it hurts, how it hurts  
I didn't want to say goodbye to you

We've been one in one  
Like the dark and the night  
Please hear my callin'  
And bring on your light

Well I don't know  
But I want to know  
I just don't know  
Baby why you're scaring me so

Well it hurts, how it hurts  
I didn't want to make you cry  
Well it hurts, how it hurts  
I didn't want to say goodbye  
It's hurtin', some hearts are bleedin'  
I miss you so - and that's no lie  
Well it hurts, how it hurts  
I didn't want to say goodbye to you
