There are many secrets
Hidden behind walls
There are many secrets
Waiting to be unfold
We all keep our secrecies
Till we're getting cold
Hiding in dark dungeons
The evil takes it's toll

We don't know
What goes on behind closed doors
We won't see?
What we never dare to see

In the human twilight zone
A secret garden
In the human twilight zone
There are to many secrets

Much to many lies
Why are we all camouflaged?
Why all this disguise

We don't know
What goes on behind closed doors?
We won't see
What we never dare to see

In the human twilight zone
A secret garden
In the human twilight zone
We don't know
What goes on behind closed doors?
We won't see
What we never dare to see
In the human twilight zone
A secret garden In the human twilight zone
