VERSE 1

Burst into fire
Combust into flame
Give in to your demons until nothing remains
As i fall deeper
Into the shadows
I wonder if things ever will be the same

BRIDGE

I look in the eyes of the reaper and smile
As I realize it was all in vain

PRECHORUS

See how we fly
Hear how we mourn
As we die
In the eye of the storm

VERSE 2

All that I cherish
Will slowly perrish
In the eternal fire of sin
The wizard is calling
But still I am falling
I summon my forces from deep within

BRIDGE

My blood starts to boil on the unholy soil
IÂ´m fighting a battle I cannot win

PRECHORUS

See how we fly
Hear how we mourn
As we die
In the eye of the storm

CHORUS

Shatter the mirror
Every piece is a lifetime of misery
Will the path that we walk lead to salvation
Say what will I find

At the end of the line
Will I die in the eye of the storm

CHOIR

See how the dragon flies
Hear how the dragon cries

PRECHORUS

See how we fly
Hear how we mourn
As we die
In the eye of the storm

CHORUS

Shatter the mirror
Every piece is a lifetime of misery
Will the path that we walk lead to salvation
Say what will i find
At the end of the line
Will I die in the eye of the storm where we fly
Will I die in the eye of the storm
