

Stygma IV "Fever Dream"

Visit "[Fever Dream](#)" on MotoLyrics.com

I am caught in a space of heat and sweat
Traces of memories exploding in my head
I don't know where I am
And why I scream
Is this all reality or is it just a dream
In this horror fiction of never ending fear
I only wish to wake again
I am lost in fever dream
I see corpses buried deep
In a fever dream
Fever
The glowing heat is in my veins
I feel so strange spirals in my head
Afraid of death I start to plead
Someone help me
In this fever picture I am too close to death
This burning heat may guide me
To my last breath
I am lost in fever dream
I see corpses buried deep
In a fever dream
Fever
I am lost in fever dream
I see corpses buried deep
In a fever dream...
