

Stygma IV "No Reason"

Visit "[No Reason](#)" on MotoLyrics.com

I had a dream - thought I could make it all alone
All on my own
But as time went by - I felt your distant cry
I never meant to feel that way
Deep inside my heart - I wished that we could start
again
That we could go together - forever

No reason for living on
'cause you left me this way
No reason to carry on
'cause you are gone

In your tender arms
Where coldness was a stranger then
I was your man
And so I'm standing here
Needin' you as much as ever
I'm still in love with you - what can I do
To meet you on the other side
That we could go together - forever

No reason for living on
'cause you left me this way
No reason to carry on
'cause you are gone
