

Stygma IV "Omega"

Visit "[Omega](#)" on MotoLyrics.com

We the destructive force on our planet
We the species destroying the land
But now the time has come
To face our demise

It's in our blood that we take everything
The illness of nature, a global disease

We are a plague
It's in our blood that we take everything
Destroy everything

We are not willing to see what we are doing
We continue to dig our graves
And now the time is here
To face our demise

We are a plague
The illness of nature, a global disease
The human plague

It's in our blood that we take everything
Destroy everything

[Incomprehensible]

We have ignored all the warnings
Now nature is taking revenge
Fire, water, earthquakes and storms
Thunder, lightning, a new world is born

It's in our blood that we take everything
The illness of nature, a global disease

We are a plague
It's in our blood to devastate
We devastate

We are a plague
The human plague
We are a plague

It's in our blood that we take everything
Destroy everything
