

Stygma IV "Pain"

Visit "[Pain](#)" on MotoLyrics.com

In the flow of time
Infinity divine
A piece of eternity
Is all I could ever be

I recall all the incidence
Which had caused me pain
All the years which passed me by
That's what I call pain

I sought experience
I longed for wisdom
Pride and hope are just like dope
A lifetime travesty

I recall all the incidence
Which had caused me pain
All the years which passed me by
That's what I call pain

I recall all the incidence
Which had caused me pain
All the years which passed me by
That's what I call pain

All the years which passed me by
That's what I call pain
