Night time
I'm touching you
This time
I'm there for you

When I lay at your side
I'm trying to shelter you
I stand up for you
I will cover you

I stand up you
I protect you
From the dark
But the scars still shining through

In the dark
There is fear attacking you
Against the phantoms
I fight each and every night

I stand up for you
I will cover you
I stand up for you
I protect you

I can't defy the shadows
Surrounding you
I cannot banish the nightmares
Scaring you

When I lay at your side
I'm trying to shelter you
I stand up for you
I will cover you

I stand up for you
I protect you
From the dark
The scars still shining through

In the dark
There is fear attacking you

Against the phantoms
I fight each and every night

I stand up for you
I will cover you
I stand up for you
I protect you

Night time
Night time

I wish I could wipe away the tears
From your eyes
If I could only let the scars
Fade away in the dark
Your scars still shining through

In the dark
There is fear attacking you
Against the phantoms
I fight each and every night

I stand up for you
I will cover you
I protect you
I protect you

Night time
I'm touching you
This time
I'm there for you

Night time
Night time
