

Stygma IV "Take Me With You"

Visit "[Take Me With You](#)" on MotoLyrics.com

No wind's blowing in this cold rainy night
The glow is fading and it's still outside
The chapter's retired - the hope is gone
I'm lost in a vision and the pain feels so alone

Now I never thought that it could turn out this way
There was laughing without sorrow
We obtained the next tomorrow in a newborn high

Take me with you - my love
I feel so alone
So take me with you - no
It's so cold since you're away

More than emotions - the music was our song
The tune was alright but the melody went wrong
Far in the distance - where I suppose you fly
I can see your picture and I feel your silent cry

Now I never thought that it could turn out this way
There was laughing without sorrow
We obtained the next tomorrow in a newborn high

Take me with you - my love
I feel so alone
So take me with you - no
It's so cold since you're away

Where are you now
Did you really have to go

Take me with you - my love
I feel so alone
So take me with you - no
It's so cold since you're away
