You don't have
To take this crap
You don't have
To sit back and relax
You can actually try changin' it

I know we've always been taught to rely
Upon those in authority
But you never know until you try
How things just might be
If we came together so strongly

Are you gonna try to make this work?
Or spend your days down in the dirt
You see, things can change
Yes, walls can come tumbling down

Governments crack and systems fall
'Cause unity is powerful
Lights go out, walls come tumbling down
Yes they do, yes they do, yes they do

The competition is
A color TV
We're on still pause
With a video machine
That keep you slave to the H P

Until the unity is threatened by
Those who have and who have not
Those who are with and those who are without
And dangle jobs, like a donkey's carrot
Until you don't know where you are

Are you gonna get some realize
The class was real and not mythologized
And like Jericho
Yes, walls can come tumbling down

Governments crack and systems fall
'Cause unity is powerful
Lights go out, walls come tumbling down

We're tuning to fight it, well united, well united

Are you gonna be threatened by?
The public enemies, No 10
Those who play the power game
They take the profits, you take the blame
When they tell you there's no rise in pay

Are you gonna try an' make this work?
Or spend your days down in the dirt
You see, things can change
Walls can come tumbling down

Governments crack and systems fall
'Cause unity is powerful
Lights go out, walls come tumbling down

Governments crack and systems fall
Yes they do
'Cause unity is powerful
Lights go out, walls come tumbling down

Governments crack and systems fall
'Cause unity is powerful
Lights go out, walls come tumbling down

Governments crack and systems fall
'Cause unity is powerful
Lights go out, walls come tumbling down
