Taking on the world  
Junked out boyfriend and you  
Making a statement while all your friends  
Are making it through school without you  
Thought you wanted a little piece of mind  
And you didn't know how to make it  
We thought you were already fine  
And you don't have to take it from him anymore  
You don't have to take it from him  
You don't have to take it from him anymore  
He's not your type you can re-adjust yourself to his way  
of life  
But he's not your type  
Everybody wants to flirt with danger  
Why do you have to stand so close to it  
I don't think it's brave or noble  
I know what you mean when you say your sick  
He's not your type and you were mine  
Before you two met, when you gonna realise  
That you don't have to take it from him anymore
