Hello, how you doin'?
It's nice to meet you and [?]
The space that you continue that takin' this music
I'mma movin' your spaces
Snake the [?]
And crown myself to dawn of the [?]
Keep calm
The [?] retards is the best ? the last unique [?]
The walls you put up they had to be tall
While I told Cheapshot to stare the beat on

You know it's on, you can check my grin
Every [?] got bumps like infected skin
I don't got big trucks with expensive rims
I got 5 bucks 'til my checks come in
I can you show you real quick what offensive is
Touch my fat and bang you to suck my tits
In the front row pissin' on a bunch of kids
You better damn well know who the fuck this is (ryu)

Oh no no no no no
[?] let's go
Got my smokes and my liquor
Don't think that we won't getcha
One day, real soon, you'll be lookin' around like "who
knew?"

They will come out quick and [?]
We win, you lose

Megadef, uhh, buck the system
My shit knocks like a [?]
Double fistin', piece of cake
My clique hold more liquid than a frequent lake
Hit my sell you can meet your fake, what's up?
Hella's hot when the ? is grey
Who the balls out ? and bang and say [?]
Ryu and Tak, Cheapshot and ?

Get a skin of a [?]
[?]

She spoke Greek in a low key tone that grabs you
[?] nice lips, tight to kiss but she's
Out of my [?]
Still I'm on the [?] lookin' for whoever to kill
Must ? at least a hundred like Cruella de Ville (how ever
you spell that sh*t)
So when I'm in the joint, packin' ? to chill
I'm just actin', money's what I get for the drill, yeah

Oh no no no no no
? let's go
Got my smokes and my liquor
Don't think that we won't getcha
One day, real soon, you'll be lookin' around like "who
knew?"
They will come out quick and [?]
We win, you lose

Watch the [?] of shots [?] a look
Much differences that [?] the dress
Cool 'cause now I'm in the skies where I had to decide
You can't catch me, oops
Look, you wear the line
I'm so sexy slap and tab down on the plastic
'til I puke a [?] shot gone in the taxi, oh
In the land the Megadef is over
Never get sober, hell of a steam roller

The door's open, be my guest
You know it's hot, you can see my breath
In the summer when the sun's up the gun becomes us
You know my name, Tiger Chan ? nuts
Got the props and it kicks the match
Off my dick, for once let me itch my sack
Go to war with the Irish, wish you did
I'll take a whole fan base with a bitch [?]

Oh no no no no no
[?] let's go
Got my smokes and my liquor
Don't think that we won't getcha
One day, real soon, you'll be lookin' around like "who
knew?"
They will come out quick and [?]
We win, you lose
