Red, yellow, hit green, then go, breathe in slow

S.O.B

You ain't never seen nothing so rugged at 90

Uh huh, with the cops behind me yo!

The boiler's grinding, keep the cuffs, enjoy your
doughnuts sir, you ain't gonna find me

It's not likelyâ€¦!

You're chasing a ghost with no brakes, slow down

Hundred proof octane, ready toâ€¦!

Stop playing, I'm hot man, gimme that pink slip

Time's up, the animals crept through

Leave them in the dust with a packet of jet fuel

Too quick, eat 'em up, better for pet food

No brain, slow lane, missing your head screws

Skin and bones let mess with your chrome set

Tricked out, hopping like your cruse in a cold chest

Parked in eagle with a safety pin

Take the backseat, now let the games begin, yeah

Ha, get ready, get set, let's roll

Road warrior in a bit of petrol

Red, yellow, hit green, then go, breathe in slow

Shape shifter

Come on man, you can't be real

I'll show you what it is, let the anthem build

Shape shifter

Put the pedal to the metal and go

Tough match, you lost by a hubcap

The big boss spray painted on my mud flap

Get a rush, yeah we're calling your cold bluff

Can never get enough

Step in, hold your breath and hang tight

Known for the big dollar bet in theâ€¦!

You're playing with the sharks, step inside

Everybody on your mark, get set, now let's ride.

That's right, put the pedal to the metal and go

The yellow madellow with slicks on sending 'em home
Stick cars in the concrete, gripping the road
So quick, get in the palm trees, look out, whoa
We got car keys hooked to remote controls
Hit a button that'll smoke and they'll rip you off
I told you, I don't want to close yourâ€¦
Quit now before you go blowin' a gasket

Ha, get ready, get set, let's roll
Road warrior in a bit of petrol
Red, yellow, hit green, then go, breathe in slow

Shape shifter
Come on man, you can't be real
I'll show you what it is, let the anthem build
Shape shifter
Put the pedal to the metal and go

All things melting
While time is shifting
Transist, transform
Yielding, bending
While time is shifting
Two shapes they can't get straight

Get ready, get set, let's roll
Shape shifter
Come on man, you can't be real
I'll show you what it is, let the anthem build
Shape shifter
If you want it, come and let me know
I'm right here, put the pedal to the metal and go
Shape shifter
Come on man, you can't be real
I'll show you what it is, let the anthem build
Shape shifter
Put the pedal to the metal and go
