If I could scream any louder or cry any harder  
I'd choke on the tears while you keep pushing me  
farther  
Farther and farther away

All of this unexplained  
All the times I've done the same  
Over and over again  
This love will never change

Sitting alone I can hear what your saying  
I know what I did, I feel that its raining  
Harder and harder inside

If I could scream any louder or cry any harder  
I'd choke on the tears while you keep pushing me  
farther  
Farther and farther away

All of this unexplained  
All the times I've done the same  
Over and over again...

All of this unexplained  
All the times I've done the same  
Over and over again...

All of this unexplained  
All the times I've done the same  
Over and over again  
This love will never change
