tell me whats wrong with you now  
tell me why I  
never seem to make ya happy  
though heaven knows ive tried  
what does it take to please you  
tell me just how  
i can satisfy ya woman your drivin me wild

chorus  
break up to make up thats all we do  
first you love me, then you hate me  
thats a game for fools  
break up to make up thats all we do  
first you love me, then you hate me  
thats a game for fools

when i come home for working  
your on the phone  
talkin' bout how bad I treat ya  
now tell me I'm wrong  
you say it's me and always  
I say its you  
We have got to get together or baby we're through

chorus x 2
