featuring Black Rob

Black Rob:

You know I come through on the regular  
Ear glued to the cellular  
Bouncing something strong  
Every time I keep telling ya  
Strive for yours  
And life for you gets no younger  
You like my little sis, Drea  
I'm like your big brother  
Watched you grow  
Now we both getting this dough  
Bad Boy-Spoiled Rotten  
Collabo and yo  
Before we put nada  
I came to straight hits  
Stack big face chips  
Buy expensive whips  
C'mon

Drea:

Just thought at first  
Through the years you proved to me  
You'll be closer than  
Any other friend could be  
When I was going through  
And I would call on you  
You were down, I know you cared  
And you always were right there

Chorus:

You've always been there for me  
We are the closest that friends could be  
When I am in need  
You are there for me  
I got ya back, baby

Drea:

No matter what people said or thought about me  
You're always first to come to my

Defense because you are  
My friends stick by my side  
Through troubles thick and thin  
On you I can depend on  
You expressed your feelings to me  
By watching over me (by watching over me)  
And even made sure (yeah, yeah, yeah)  
Can't nobody take your place  
No one can take your place  
Take your place  
No, no, no, no, no, no

Chorus:

Drea:  
You got my back, baby

Black Rob:  
Hey, yo  
Drea, what's going on?  
It's me, Rob  
I'm on T's having this joint  
Down with my Bad Boy mark  
You shoulda saw the crowd went wild  
When I came out  
Kept my rhymes in three words  
Screamed your name out  
See, now they knowing you  
Like they know me
