You destroy all that we create

Your lives are filled with prejudice and hate

search for tomorrow, but there's only yesterday

Time and time again

Fight to release years of anger buried so long ago

Uncovered by your lies - which I despise

Take these hearts and squeeze them tighter -
suffocate a life

Controlled by your hand - be it ever so damned

Innocent - i the shame

The young will follow - the old's to blame

You'd sell your soul for a dollar

You'd kill a human for a color

You're laughing yet you're hiding in your institution

What worth is fighting when there's no solution

For all time...conscious crime

Freedom's son forgotten

You're loving and you're hating you're a contradiction

It's a holy crusade, but you have no religion

They're not like you so you plead high treason

You're living in hatred with no reason

Bitterness and hatred to you and your kind

Living for hate you're not perfect; tell me the reason
why

You're living out a lie

BITTERNESS AND HATRED TO YOU AND YOUR KIND
